---

The Upper Peninsula Food & Farm Directory was created to help you locate the wide selection of local foods available in Michigan's Upper Peninsula.

The listings are organized alphabetically by the thirteen counties in the U.P. and by organization name.

For the most up-to-date and detailed business information, see the online version of the directory at [www.upfoodexchange.com/directory](http://www.upfoodexchange.com/directory). If you would like to be listed in the next edition of the guide, visit the aforementioned website and follow the instructions to create a listing online.

Please make sure visitors are welcome or call before you visit a farm.

All products are available seasonably and "while supplies last".

If you have any further questions about the directory, please contact Natasha Lantz at 906-225-0671 x 711 or email [nlantz@marquettefood.coop](mailto:nlantz@marquettefood.coop).

---

For more information on purchasing please go to [www.upfoodexchange.com](http://www.upfoodexchange.com) or contact the farm directly.

---

**\* The Marquette Food Co-op has made no attempt to verify the information provided by the farms regarding their products and practices. It is up to you, the consumer, to research where your food comes from. You are encouraged to visit the farms, ask questions, support local, and enjoy eating the bounty provided here in Michigan's beautiful Upper Peninsula.**

This directory was printed on 100% post-consumer recycled paper.

# U.P. FOOD EXCHANGE & THE DIRECTORY

This guide was created by the Marquette Food Co-op's Outreach Department and the U.P. Food Exchange.

The U.P. Food Exchange (UPFE) is a partnership between The Marquette Food Co-op and MSU Extension in conjunction with the Western U.P. Health Department to support the local food activities already taking place within the Upper Peninsula's distinct regions (eastern, central, western). UPFE assists with the development and ongoing maintenance of the three successful regional food hubs and serves as a resource portal for farmers, businesses, and individuals looking to connect with and actively participate in their local food system. Learn more at [www.upfoodexchange.com](http://www.upfoodexchange.com).

# LOCAL FOOD TERMS & RESOURCES

If you see a designation other than those listed on this page, it means that the grower believes a particular name or title more accurately describes his or her products. You will need to check with the grower for further clarification.

## TERMS

---

### Certified Organic

*(defined by [www.rodaleinstitute.org](http://www.rodaleinstitute.org))*

Organic farmers integrate cultural, biological, and mechanical practices that foster cycling of resources, promote ecological balance, and conserve biodiversity to grow food and fiber. These methods include use of compost, crop rotations, cover crops, and access to outdoors and pasture for animals. Synthetic fertilizers, sewage sludge, irradiation, and genetic engineering may not be used. Certified organic farmers follow strict rules and are monitored closely to ensure that the standards are being upheld. Learn more at [www.ams.usda.gov/about-ams/programs-offices/national-organic-program](http://www.ams.usda.gov/about-ams/programs-offices/national-organic-program)

### Certified Naturally Grown

*(defined by [www.naturallygrown.org](http://www.naturallygrown.org))*

Certified Naturally Grown (CNG) is a grassroots alternative to the USDA's National Organic Program meant primarily for small farmers locally and directly to consumers. The CNG Standards and growing requirements are no less strict than the USDA National Organic Program rules. CNG is based on the participatory guarantee system model in which inspections are typically carried out by other farmers.

### Grass-Fed

*(defined by [www.usda.gov](http://www.usda.gov))*

To be labeled as Grass-fed, an animal must have been fed nothing but grass or forage for the entirety of its lifetime, with the exception of its mother's milk during nursing. Animals cannot be fed grain or grain byproducts and must be given continuous access to pasture during the growing season.

### Hormone-Free

*(defined by [www.sustainabletable.org](http://www.sustainabletable.org))*

The USDA prohibits the use of hormones in pork and poultry production, but not in beef. Hormones are used to increase production which will then carry residues in products and manure. Hormone-Free means that no hormones were given to the animal during its lifetime at that particular farm.

### Raised Without Antibiotics

*(defined by [www.greenerchoices.org](http://www.greenerchoices.org))*

Use of the term antibiotic free is considered unprovable by USDA on any meat products. Variations of this claim, such as no antibiotics administered, are allowed by the USDA, but they have no verification system established. In this guide, Raised without Antibiotics means there were no antibiotics administered to the animal. The only exception would be in the case of antibiotics administered to a sick animal that is quarantined away from the herd or flock for the duration of its illness and then reintroduced to the herd or flock.

### Conventional

*(defined by the Marquette Food Co-op)*

Operations are considered Conventional if they use any synthetic fertilizers, pesticides, herbicides, insecticides, hormones, antibiotics, or common enhancers like Miracle Gro™, on any crop or animal at any time.

### Authentic

*(defined by the Marquette Food Co-op)*

Operations are considered Authentic if they do not use any synthetic fertilizers, pesticides, herbicides, insecticides, hormones, antibiotics, and common enhancers like Miracle Gro™. The only exception would be in the case of antibiotics administered to a sick animal that is quarantined away from the herd or flock for the duration of its illness and then reintroduced to the herd or flock.

### MAEAP

*(defined by [www.maeap.org](http://www.maeap.org))*

The Michigan Agriculture Environmental Assurance Program (MAEAP) is an innovative, proactive program that helps farms of all sizes and commodities voluntarily prevent or minimize agricultural pollution risks. Farmers reduce legal and environmental risks through MAEAP's three-phase process: education, farm-specific risk assessment, and an on-farm verification of his/her practices.

## CSA

Community Supported Agriculture (CSA) is a partnership between a farm and a community of supporters which provides a direct link between the production and consumption of food. CSA members cover a farm's yearly operating budget (seeds, fertilizer, water, equipment maintenance, labor, etc.) by purchasing a share of the season's harvest. CSA members make a commitment to support the farm throughout the season, and assume the costs, risks, and bounty of growing food along with the farmer or grower. This mutually supportive relationship between local farmers and community members helps create an economically-stable farm operation in which members are assured the highest quality produce, often below retail prices. In return, farmers and growers are guaranteed a reliable market for a variety of crops.

## Herd Shares

When you purchase a herd share, you actually buy part of the animal. It's very similar to a produce CSA, except the product is milk from your shared animal. Herd shares are the only way to access unpasteurized milk in Michigan, short of keeping your own livestock.

## RESOURCES

---

### Marquette Food Co-op

[www.marquettefood.coop](http://www.marquettefood.coop)

We offer a one-stop shopping experience for quality, healthy foods with nutritional integrity, and an extensive range of vitamins, minerals, and natural remedies and supplements. Visit our website to download newsletters, sale flyers, recipes, and keep updated with area news and events hosted by the Marquette Food Co-op.

### Michigan State University Extension

[msue.anr.msu.edu](http://msue.anr.msu.edu)

Supporting agriculture—Michigan's second-largest industry—is key to a brighter future. Michigan State University Extension works to increase farmers' success while protecting the environment, ensuring food safety, reaching new markets and advancing agriculture through

### Michigan Department of Agriculture & Rural Development

[www.michigan.gov/mdard](http://www.michigan.gov/mdard)

The mission of the Michigan Department of Agriculture & Rural Development is, "To protect, promote and preserve the food, agricultural, environmental, and economic interests of the people of Michigan." Visit this site to keep updated on agricultural regulations, licenses, and food safety alerts.

## Local Harvest

[www.localharvest.org](http://www.localharvest.org)

LocalHarvest is America's #1 organic and local food website, maintaining a definitive and reliable "living" public nationwide directory of small farms, farmers markets, and other local food sources. The LocalHarvest search engine helps people find products from family farms, local sources of sustainably grown food, and encourages them to establish direct contact with small farms in their local area. The online store helps small farms develop markets for some of their products beyond their local area.

## Slow Food USA

[www.slowfoodusa.org](http://www.slowfoodusa.org)

Slow Food is an idea, a way of living and a way of eating. It is a global, grassroots movement with thousands of members around the world that links the pleasure of food with a commitment to community and the environment.

## Culinate

[www.culinate.com](http://www.culinate.com)

Culinate's content—articles, cooking tips, interviews, recipes, podcasts, food news—helps people put real food at the center of their lives. This site helps answer questions like: Where does our food come from? How's it produced? What does the phrase "you are what you eat" mean in the 21st century?

## U.P. Food Exchange

[www.upfoodexchange.com](http://www.upfoodexchange.com)

The U.P. Food Exchange (UPFE, The Exchange) is an entity created in November of 2012 with funds from a Regional Food Systems Grant from the Michigan Department of Agriculture and Rural Development. UPFE supports the local food activities already taking place within the Upper Peninsula's distinct regions (eastern, central, western), and assists with the development and ongoing maintenance of the three successful regional food hubs. UPFE serves as a resource portal for farmers, businesses, and individuals looking to connect with and actively participate in their local food system.

# FARMERS MARKETS

**F**armers markets are community gathering places where people socialize, take a break from their busy lives, and appreciate the beauty of being outside in the fresh air. They are good for people, good for local economies, and good for the Earth. If we've missed a market near you, please contact us and we'll be sure to include them in the next edition.

## BUSINESSES

Local food is an ever expanding part of the U.P.'s economy. As demand grows, businesses are responding by adding local food to their menus and stocking local food on their shelves and in their coolers. You can encourage this trend by choosing to spend your dollars at businesses that carry local foods.

## FARMS | Alger County

**P**urchasing from a local farm economically supports families in your community and gives you access to nourishing and flavorful food. Through this guide, organized by county, you can get to know farms that grow food near you. All farms listed here sell directly to the public through area stores, farmers markets, or from the farm. If you wish to visit the farm or purchase directly from them don't forget to contact them first!

# Eat well. Think local.

Marquette Food Co-op is your neighborhood full-service grocery, offering everything from local produce to home cleaning products. Everyone is welcome at our store, where ownership is encouraged but never required. We offer a variety of natural, local, and organic foods in a clean and comfortable environment. Our knowledgeable staff is eager to give you a tour, answer questions, and make you feel at home.

When you shop at the Marquette Food Co-op, you're supporting a local business, in turn supporting local farmers, producers, and artisans. Stop in and check us out!

Open Daily, 8 to 9 • 906-225-0671 • [www.marquettefood.coop](http://www.marquettefood.coop)
